25X1		He has been interrogated concerning the revolt and his connections with foreigners.				
25 <mark>X1</mark>	5.	revealed that Quijano was nominated to be Peron's running mate against his will and that he is violently conced to Peron's political and economic policies. For example, Quijano feels that the parading of the armed forces on 17 October, a 'loyalty' day dedicated to Evita Peron, is a maneuver and that it will bring serious consequences.	25X′			
. •	6.	Feron is carrying out the program which he expounded in his books written in 1944, namely, a new Argentine Communism with a well-organized proletariat. That Peron is engaged in a plan of vast ramifications is evidenced in his articles printed in the newspaper Pemocracia, under the by-line of Descartes, and by his financial aid to the Nueva Argentina, an organ of the dissident section of the Partido Comunista Argentino (PCA).				
25X1	7.	neither Quijano nor Alberto Teisaire, head of the Supreme Council of the Peronista Party, will replace Peron during the leave of absence. Rather, a person of Peron's personal choice will act as a figurehead with Peron continuing to rule as President and directing the pre-electoral campaign from whatever place he is located. On his political tour Peron will visit the Province of Corrientes, where he plans to replace General Filomeno Velazco, the present revernor, whom he considers to be a political enemy. Along this same line, Peron has completely eliminated Colonel Domingo Mercante from the political scene.				
25X1	8.	P ron will be re-elected but will receive fewer votes than in 19h6. However, in compensation he will have the support of the Partido Peronista Feminino, a well-organised group, with opposition parties have neglected completely. After the elections, Peron, in collaboration with the Confederacion Ceneral de Trabajo (CCT), will govern the country. However, the future public officials all become more and more incurrenceds.	25X′

		(rara 384) that the Code of Military Justice has been revised and a new Tribunal de Calificaciones to bass on military p protions has been cleated. This Trubunal will make considerable changes in the corbs of officer and non-commissioned officers of the armed forces.	_			
	10.	With regard to the military, all of the officers and several of the students of the Escuela de Informaciones of the Army have been assigned to the various military centers, with instructions to denounce any member of the armed forces who talks against the Peron government. Captain Scialzetta, who is a student in the Escuela de Guerra and who is married to Peron's niece, has personally denounced 40 students of this school as anti-Peronistas. It is further reported that General Vacca has recently given several lectures in this school on the subject of the "superman Peron," or the "Blue man" as Vacca calls him. On the occasion of Peron's birthday two officers from each military unit were sent to attend the event and upon their return one of these officers was required to lecture to his fellow officers describing the "warm reception" with which Peron was greeted on the occasion.	25X ²
